Across Legal has advised Mangrove on its investment in Catalan startup, Buo. Founded in 2020, Buo specialises in the retail industry and its mission is to reduce supermarket costs for consumers.

This time, it has raised €2m in a financing round led by Mangrove Capital Partners, the fund that has entered the Catalan company as a minority shareholder with Didac Lee, Spanish entrepreneur and business angel, co-founder and managing partner of Galdana Ventures.

The capital increase has also been subscribed by Oscar Pierre, co-founder of Glovo, and Inés Urés, who were already present in the Catalan startup as private investors.

The operation was led by the Across Legal's partner, **Iván Moll** (pictured).
