Across Legal has advised the revenue recovery platform, Red Points, on its financing round.

“Our north star is to make the Internet a safer place for brands and consumers, and I could not ask for a more committed team to keep advancing towards this objective. The way in which we implement our mission is also core to us, with values like sustainability, respect, diversity, and transparency”, said **Laura Urquizu**, Red Points' CEO & President.

The team from Across Legal advising Red Points was led by the partner, **Ivan Moll** (pictured).
