Andersen has advised the spanish group MFI (Medical Fomento Industrial), a supplier of optics and acoustics in northern Spain, on the sale of the group companies Ibervisión (Ibervisión Servicios Ópticos), Medop (Medop) and Elaboria (Elaboria) to the Hamburg-based firm, Fielmann.

Through this transaction, the Fielmann Group enters Spain, in line with its plans to achieve market leadership in the country in the medium term, while the MFI Group accelerates its expansion by gaining access to an international supply chain and a superior omni-channel platform.

The team from Andersen advising MFI was formed by: **Jaime Aguilar** (pictured centre), corporate and M&A partner, together with **Mayo Torres** (pictured left) and **Mauricia Silvia** (pictured right), associate and lawyer, respectively, in the same department.
