Antas da Cunha Ecija achieves the highest number of M&A transactions in Portugal for Real Estate and Distribution and Retail in 2020.

Antas da Cunha Ecija & Associados has announced that, despite the fact that the number of M&A transactions in Portugal suffered a slight decrease in 2020, the firm has achieved the highest number of transactions in the Real Estate and Distribution & Retail sectors. This is according to data published by TTR, Transactional Track Record.

Fernando Antas da Cunha, Managing Partner at Antas da Cunha Ecija (pictured) said:

"In a year marked by the global pandemic resulting from the health crisis caused by Covid-19, in which many companies were forced to abruptly suspend their activity and where the restrictions of travel contributed to a significant decrease in foreign direct investment in Portugal, these results fill us with pride. Despite all the uncertainties, we are optimistic about 2021".
