Ashurst Spain has advised ACS on the sale to Sonnedix, who were advised by Perez-Llorca

Ashurst Spain has advised ACS Servicios, Comunicaciones y Energía, on the sale to Sonnedix, of two 50MW operating solar PV plants. Each are located in Castilla-La Mancha and Cáceres, Extremadura (Spain).

ACS provides construction and industrial services. The company focuses on development, construction, maintenance, and operation of energy, industrial, civil, and mobility infrastructures.

Sonnedix Power Holdings Limited (together with its subsidiaries, Sonnedix) is a global solar Independent Power Producer (IPP) delivering solar photovoltaic plants to the market. They develop, build, own and operate solar power plants globally, including over 1GW of photovoltaic power plants in operation, as well as several hundred MW under development, in Italy, France, Spain, USA/Puerto Rico, Chile, South Africa and Japan.

The team from Ashurst Spain advising on the deal, was led by (pictured clockwise from top left) Andrés Alfonso, Corporate Energy partner, Maria García de Vega, Corporate M&A senior associate, Beatriz Aizpún and Cristina López-Canosa, both Corporate M&A associates.

The Corporate team from Perez-Llorca advising Sonnedix on this deal included Alejandro Osma, partner, Nasif Hamed, Tobías Kálnay and Pablo Aguilar.
