Atland, a firm specialising in legal and economic advice to middle market companies, has been created.

At the origin of Atland is the Aragonese firm JYM Abogados, a law firm that begins a stage marked by a new organisational structure and a strategic territorial expansion plan after the integration into the new brand of the law firm One Step Ahead and the agreement reached with Damihifactum and the incorporation of the Catalan partners **Joaquim Massanella** and **Luis Grech**.

In order to achieve its objectives, the new brand, which currently has offices in Madrid, Barcelona and Zaragoza, has also announced the promotion of **Paloma Larroy** as partner, and the arrival of **Carlos Peralta** as external Of Counsel.

These four professionals have a proven track record after working for firms such as Garrigues, Cuatrecasas and EY.

With the union of all these specialists, who have more than 20 years of experience, and the launch of the new brand, Atland aspires to become a national firm of reference for the mid-market.
