BDO Abogados has hired **Álvaro Gasull** (pictured) as a new partner for its restructuring practice in the Barcelona office.

Gasull, who comes from RocaJunyent, will join **Agusti Bou**'s team, with whom he will combine the leadership of the area in the coming months.

With this incorporation, BDO Abogados continues to strengthen its restructuring area, betting on growth in advising companies in the different insolvency and restructuring processes, commercial litigation and creditor defence in insolvency proceedings.

"This incorporation of **Álvaro Gasull** is a further step in the line of legal advice to continue offering a multidisciplinary service to our clients, especially in an environment like the current one, with a large number of companies expected to undertake restructuring and insolvency processes," said **Pablo Albert**, managing partner of the area.
