Bonet & Rubio Abogados y Asesores Tributarios is born after the merger of two Valencian law firms; Estudio Jurídico and Rubio y López Abogados y Asesores Legales

According to Valencia Plaza first info, the merger of the two law firms headed by lawyers Jesús Bonet Sánchez and Enrique Rubio has given rise to the birth of the new firm Bonet & Rubio Abogados y Asesores Tributarios, a business partnership comprising a total of 28 professionals in the city of Valencia. This merger has been possible thanks to previous years of collaboration between the two law firms.

In 1957, Jesús Bonet Alcón founded Estudio Jurídico Jesús Bonet, where it has developed its professional services for more than 60 years under the premise of excellence and personalised treatment in advising each client. During this time, the firm has reached its third generation of lawyers, with his son Jesús Bonet Sánchez and grandson Jesús Bonet Martínez being at the helm.

On the other hand, Rubio y López Abogados y Asesores Legales was founded by Enrique Rubio López in 1997 as managing partner and has managed to consolidate a great team of professionals with extensive experience and a high level of specialisation in Legal and Tax advice.

The firm, headed by its three managing partners -Jesús Bonet Sánchez (pictured centre), Enrique Rubio López (pictured left) and Jesús Bonet Martínez (pictured right)- completes, with the merger, its range of services. "We intend to offer our clients a broad approach and adapt to new needs, without leaving aside the DNA of our former firm and its founder," said Jesús Bonet, managing partner. "We have been looking for a law firm with which we share values and culture, and we found it in Rubio, with whom we had already been collaborating for some time", added Jesús. Rubio, for his part, explained that "with this merger we will be able to expand our business areas and offer comprehensive advice to our clients."

The new headquarters of Bonet & Rubio Abogados y Asesores Tributarios is located in its offices in Calle Colón 42, one of the main arteries of the city.
