Clifford Chance has advised a syndicate of lenders, with CaixaBank as agent bank and lead arranger, on the €120 million additional financing to Cementos Molins

Cementos Molins is a manufacturer and distributor of construction materials with production plants in Spain and LatAm, amongst others.

The financing, for a total of €300m, has been structured on a term and revolving credit facility to finance all of group debt in Spain and is linked to ESG objectives (CO₂ reduction in their concrete production plants).

Clifford Chance's Global Financial Markets team advising on this transaction is led by partner José Guardo (pictured left), supported by counsel Carl Fitzgerald (pictured centre) and associate Pablo Cancelo (pictured right).
