Ceca Magán Abogados has announced the closing of 2021 with a turnover of €13.7 million

Ceca Magán Abogados has announced the closing of 2021 with a turnover of €13.7 million, which represents a growth of 19% compared to 2020, meeting the initial expectations and objectives that the firm had set at the beginning of the year.

The firm consolidates the business in its 10 areas of services with a team of more than 130 professionals in its own offices in Madrid, Barcelona, S/C de Tenerife and the recent offices opened

in October 2021 in Seville and Las Palmas de Gran Canaria.

Esteban Ceca Gómez-Arevalillo (pictured bottom left), managing partner of the firm, said: "This sustained development over the years and the 2021 results are the fruit of the trust of both clients and the work and commitment of each of our professionals. We are very proud."

Throughout 2021, the firm was strengthened with the arrival of five important additions and partners of recognised prestige: the Alonso Dregi brothers, José Carlos González Vázquez, Jesús Carrasco and Rafael Ariño, who joined at the end of the year.

The firm has highlighted the growth in turnover in the Commercial and Tax areas of 150% and 63% respectively. Likewise, in 2021 the Labour area consolidated the growth of more than 50% in 2020, increasing its revenues by more than 4% compared to the previous year.

Enrique Ceca, managing partner of the Labour area, said: "After an unprecedented 2020, we value even more the successes of 2021 knowing that with our dedication and constant effort we have been able to help many companies out of this unparalleled crisis."

"Our forecasts for 2022 remain optimistic in the face of a pandemic that we do not know how long it will be with us, although we hope that everything can be normalised by 2023. Our challenges and objectives for the firm as a whole are to consolidate the latest additions, expand our staff in the areas where we foresee the greatest needs, such as labour, commercial and litigation, maintain turnover growth of over 10% and continue to develop as a project by applying our own style in the practice of law," said the managing partner Esteban Ceca.
