CMS Albiñana & Suárez de Lezo has hired **Raquel Sánchez Candela** (pictured), an insurance regulatory lawyer, who joins the Insurance and Innovation practice.

Sánchez Candela comes from UNESPA, the Spanish Insurance Business Association, where in recent years she has advised its member companies and from where she has represented the Spanish insurance market in the handling and development of projects in Insurance Europe, the European federation of insurance associations.

She has extensive experience in the insurance and pensions sector, as well as in insurance distribution and sustainability. Her appointment coincides with the second anniversary of the creation of the practice area in the Madrid office, which has doubled its size since June 2020 with the arrival of the partner Jaime Bofill.

"I am delighted to be able to count on Raquel's experience and expertise in the insurance sector. The insurance sector is experiencing a time of continuous growth and it is a privilege for the law firm to count on the highest level of human talent. On behalf of the firm, we warmly welcome her", says Insurance and Innovation partner **Jaime Bofill**.
