Cuatrecasas has advised Venture Capital fund Samaipata on its participation in the €45 million

Series C financing round of tech platform Colvin

Colvin is a B2B & B2C platform redefining how to buy flowers online that is growing on an upward trend, increasing its sales by 70% every month, thanks to its strong focus on quality, long-lasting flowers, coupled with exceptional service and user experience.

This injection of capital will allow the Spanish startup to scale its business in Europe, expand its team, invest in technology, and reinforce its leadership in the flowers and plants industry with its B2C and B2B business model.

The Cuatrecasas team that advised Samaipata was led by partner Diana Rivera (pictured left), including lawyers Paula Martínez (pictured right) and Elisa Lucas.
