**Cuatrecasas will move its head office in Portugal to Avenida Fontes Pereira de Melo in early 2021. The new space will have around 8,000 square metres**

The 12-story building is located on Avenida Fontes Pereira de Melo n. ° 6, just 300 metres from the firm's current office, in the city's most central area. As sources from the firm explain, the move not only seeks to expand the available space (the new office has almost 8,000 square meters, compared to 4,400 of the previous one) but also to settle in a high-tech building, with working areas that follow the highest standards of comfort, aesthetics, functionality and energy efficiency, in line with the firm's latest offices.
