Cuatrecasas has advised the private banking firm A&G on the incorporation and launch of A&G Global Private Equity I, the first private equity fund of funds that will reach a volume of €100 million and invest in North American and European private equity firms.

The aim of the fund is to channel investment into a diversified portfolio of private equity funds with a value in excess of €500 million, operating in the mid and upper mid market.

The €100 million investment will be spread across approximately 10-15 underlying funds providing exposure to a large number of companies across a range of sectors and geographies, while seeking a balance of exposure between Europe and North America.

The fund has been established for an estimated total duration of 10 years from final closing, although this may be extended at A&G's discretion for three successive periods of one year each.

The Cuatrecasas team involved in this deal was formed by partners **Paz Irazusta** (pictured right) and **Jorge Canta** (pictured left), who were assisted by **Carlota Barrio**, **Carlos Posadas** and **Juan M. Navajas**.
