Cuatrecasas has advised the steel and aluminium processing firm on its agreement to acquire a 40% stake in the slovakian company Hidria.

Hidria is co-creating and enabling the green, emission free mobility of the future by providing the related global breakthrough innovative solutions. It is specialised in industrial and automotive technologies. They develop and manufacture innovative solutions for a healthy, enjoyable and safe life.

Cuatrecasas advising team was formed by the partners, **Federico Roig** (pictured right) and **Andrew Ward** (pictured left); and the associate, **Sara Shackleford**.
