Dentons has integrated its Barcelona office into Madrid, taking over all business from the capital.

The move will entail the physical closure of its headquarters in Barcelona, located at Avenida Diagonal 477, and the transfer to Madrid of the two partners and 10 professionals that the organisation has there.

The effective date for the closure of the headquarters in the catalan capital will be 18 april. Dentons España currently has around 60 lawyers, including 15 partners.

Jabier Badiola (pictured), managing partner of the firm in Spain, remarks that this step is in line with the widespread trend towards remote working. "The firm has taken this decision in light of the changing needs of our clients and also of our own business," Badiola explained.
