DLA Piper has advised Muzinich & Co, a global Asset Manager specialised in private debt, on the

investment operation in Grupo Natac

Grupo Natac, the leading entity in the industry of natural ingredients of botanical origin and also owned by Inveready, continues to expand and strengthen its leadership position with the expansion of its facilities and the creation of new product lines.

DLA Piper advised on this operation with a multidisciplinary team from the Madrid and Luxembourg offices. The team was coordinated by Juan Gelabert (pictured left), partner of the Financing, Project and Restructuring department in Madrid, and has had the participation of Nerea Cemlyn-Jones (pictured centre), of counsel and Sara Espina Sánchez from the same department together with Enrique Chamorro (pictured right), partner of the Commercial team, Rocío García and Alejandra Castañeda, respectively senior associate and associate of the same department. From DLA Piper Luxemburg, the team has been made up, among others, by Xavier Guzmán, Financing, Project and Restructuring partner, Luis Muñoz, Tax partner, and Ambroise Foerster, of counsel.

Juan Gelabert said: "It has been a pleasure to once again have Muzinich's trust in this operation, which has required, due to its structure, the involvement of colleagues from various departments and jurisdictions. This demonstrates our capacity and proven ability to advise on complex operations of these characteristics. "
