Ecija has advised Wise Security Global in the adaptation and implementation of the legal and technical requirements necessary for compliance with regulation 910/2014, on electronic identification and trust services (eIDAS) as a qualified trust service provider.

By this agreement, Wise Security Global has obtained the authorisation of the ministry of economic affairs and digital transformation as a qualified trust service provider at european level.

In order to obtain this qualification, the applicant entity has to face a very demanding audit process, which Wise Security Global has successfully passed.

The team from Ecija advising Wise Security Global was led by the partner, **Alonso Hurtado** (pictured) and the manager, **Mar Ibáñez**.
