Ecija has hired **Paulo Morgado** (pictured) as a TMT partner at its Lisbon headquarters.

Morgado is a lecturer at various business schools (IE, Porto Business School). He is also the author of numerous works related to negotiation and business management in the IT field and is a regular contributor to the specialised press.

With more than 35 years of experience, **Paulo Morgado** specialises in advising national and international clients on IT matters. Morgado was until 2018 managing director of Capgemini in Portugal and Spain, a group he joined in 2001 and where he became executive vice president in 2012. Previously, he developed his professional career at Roland Berger and Banco Finantia and was CEO of the Vidago Group.

"The combination of technical and legal profiles of the firm's TMT area makes Ecija a real player in the IT sector in the iberian market. I hope that my consulting profile will help us consolidate the different projects we are working on hand in hand with our clients", said **Paulo Morgado**.
