Ecija has integrated Madrid-based tax boutique Zadal Abogados.

As a result of the merger, Ecija will add seven new professionals led by Zadal's founding partners Antonio Cendán and Nazario Mendoza.

Ecija now has more than 60 partners and 350 professionals following a period of rapid expansion in the last year, which included adding seven new offices in Latin America in the last year.

Alejandro Touriño (pictured), managing partner of Ecija, said: "Our short-term objective is to continue growing, betting on a full service strategy that allows us to compete with the most relevant companies in the market, reinforcing our practice areas and favouring structural growth and synergies among our professionals."
