## ETL GLOBAL ADD REINFORCES TAX ADVISORY AREA

Category: Archive

ETL Global ADD has incorporated Mariano Roca as partner for its tax advisory area

With more than twenty years of experience, Mariano Roca has joined ETL Global ADD to enhance the area of tax advice.
be especially focused on companies, national and international groups, individuals, wealth management, tax and inheritance planning, and especially on regulatory compliance at the tax level," said a spokesperson in a statement from the firm.

Roca began his professional career at the Cuatrecasas, where he developed extensive experience advising companies and individuals. He worked there for 15 years until he became a senior associate, specialising in legal and tax advice to Family Businesses for high net worth nationals and internationals. In 2012 he joined KPMG Abogados as a senior manager co-leading the Private Client area and directing a team of eight people in the Barcelona, Girona, Palma de Mallorca and Andorra offices. For the last six years he worked as a partner in charge of the tax area of the $4|5| 3$ Law Firm, representing national clients with interests abroad as well as international clients with interests in Spain.

With the incorporation of Mariano Roca, ETL Global ADD will promote its area of tax advice to both large assets and national and international groups, all within the framework of growing complexity in taxation in our country. In addition, Mariano will bring his focus and experience in estate planning to reduce the tax impact of potential inheritances, as well as in assisting the client in the generational change of their family business and in restructuring operations.

For Manuel Calavia, partner of ETL Global ADD and member of the Management Committee of the ETL Global Group in Spain, "Having the incorporation of Mariano is a success in the value proposition that we offer to our national and international clients, since the tax area of our firm is the line of services with the greatest depth that ETL Global has at an international level".

In the words of Mariano Roca, "joining ETL Global ADD has been a wise decision because it represents a commitment to the future of my professional career and a new challenge to promote and lead the area of tax advice, helping the growth of the firm at the national level and international."
