Gómez-Acebo & Pombo has advised Impax Asset Management on the sale to Sonnedix of Fraile Hive, owner of a 36 MWp plant located in Herencia, Ciudad Real.

During 2019, UK-based Impax Asset Management acquired the rights to this project and has developed the project to date. The 36 MWp Fraile PV plant is expected to generate 78 GWh of clean electricity during its first year of operation.

The GA_P team advising Impax was formed by: **Pablo Fernández Cortijo** (pictured), partner; **Diego Martínez Colino**, **Saray López Lindo**, **Laura Rey Escribano** and **Samara Schaar**, associates, from the corporate/M&A team, **Cristina Matia** and **Paula García Cuevas**, public and regulatory associates; **Natalia Lastres** and **Sofía Inés Saénz de Valluerca**, of counsel and real estate associate; and **Remedios García Gómez** and **Ángela Atienza**, tax of counsel and associate.
