Gefiscal ETL Global will integrate, this month, the company Adverto Consultores, a consultancy firm specialised in people management for SMEs, located in Mérida and operating throughout Extremadura.

This integration responds to Gefiscal's commitment to professionalise its human resources services, an area that is increasingly in demand by companies due to the difficulty of finding certain professional profiles and managing human resources in an optimal way.

Gefiscal ETL Global is a professional services firm with more than 45 years of experience in the sector, dedicated to comprehensive advice and consultancy for companies and individuals, offering solutions in the areas of tax, labour, accounting, legal, commercial, ICT and business consultancy. Since October 2020 it has been part of the ETL Global group, a firm specialised in professional legal, tax, labour, audit and consultancy services with a presence in more than 50 countries.

The Adverto Consultores team that will be integrated with the rest of the Gefiscal staff is made up of highly qualified technical professionals, consolidated in the sector and with extensive experience providing services to companies of different sectors, sizes and private or public nature.

The leader of the Adverto Consultores team, **Pedro Romero**, emphasises that "the integration within Gefiscal ETL Global means being part of an exciting project with a great long-term projection".
