

GENERATION 3.0. TECHNOLOGY AND THE LAW FIRM OF THE FUTURE

Posted on 27/11/2015

Category: [Videos](#)

In July 2015, over 130 associates from eleven law firms participated in a series of innovation workshops in Madrid. This video provides their perspective of the changing that will bring the technology to the legal services, how they imagine the future work place and the flexibility interaction between clients and partners.
