Gros Monserrat, a member firm of the ETL Global professional services group since 2019, has merged with Cervera & Gonfaus under the name Adbisio ETL Global.

Both firms specialise in providing professional advisory services to companies and individuals in Manresa.

Thus, and after years of close collaboration with Cervera & Gonfaus, a firm founded in 1996 by partners **Robert Gonfaus** and **Santiago Cervera**, they have decided to join projects with the aim of continuing to grow in order to offer a greater and better service to their clients, and to consolidate their position as a professional firm of reference in Catalonia.

As a result of this merger, the new firm Adbisio ETL Global will have 8 partners and a team of 60 professionals who will offer services in recently refurbished facilities in the centre of Manresa, with more than 800 m2.
