

IBERIAN BEST 60 LAWYERS IN BUSINESS LAW

Posted on 13/10/2021

Category: [Archive](#)

Iberian Lawyer presents, in alphabetical order, a selection of the top 60 lawyers from some of the most relevant practice areas in Spain and Portugal. In order to make this selection, we conducted an analysis of the leading lawyers working in private practice in Spain and Portugal, taking into account their positioning in their practice, both at the national and international level, as well as their active participation and leadership in relevant deals and matters. Likewise, in some cases, the special reputation of the lawyers as extraordinary dealmakers reported by

market intelligence sources has been highlighted, as well as being recognised by renowned international legal directories, together with the recent progress made in their careers and their performance reputation from an editorial perspective. This is an acknowledgement to the lawyers from our editorial team, regardless of the relationship they have with their law firms, although most of them are chosen at the partner level. As is often the case with these selections, not all the best lawyers are here, but we can attest that the ones here are top lawyers.
