InspiraLaw: TOP 50 WOMEN IN THE IBERIAN LEGAL SECTOR

Once again this year, Iberian Lawyer wishes to recognise the important work carried out by the top women lawyers in the Iberian Peninsula, both in law firms and in-house. Our list presents, in this 2021 edition, 50 women from Spain and Portugal whose work promotes the role of women in the legal sector and in our society in general. For this list, we have taken into account their recognised specialisation in their respective practice areas, their academic work and their active membership of associations and organisations that work to promote equality and diversity in the legal sector. In addition, their careers in decision-making positions within the firms or companies and the assessment made of them by other colleagues as inspiring women have also been valued. Some of them are already veterans, and others appear for the first time in this ranking, which only aims to contribute to the great daily work that all these and many other women in the legal sector carry out.

InspiraLaw:
