**KWM advised Portuguese energy company Finerge in the purchase of six photovoltaic solar**

## **plants from Portuguese group Martifer for a total amount of €23.5m**

The assets have a total capacity of 8.1 MWp and are located in Huelva, Sevilla and Salamanca. With this acquisition, Finerge has a total installed capacity of 1,049 MW in renewable energy (solar and wind) in Iberia.

The team from KWM was led by Roberto Pomares (pictured) and Victoria Ruenes, both from the M&A department.
