King & Wood Mallesons (KWM) has advised the energy company, Mithrasol, on the financing process for the construction of 11 solar PV plants in Spain, with a total installed capacity of 41.8 MW.

The project, located in Castilla-La Mancha and Andalusia, foresees investment costs of more than €35 million.

Mithrasol is a company founded in 2020 specialized in the promotion, construction, and operation of solar plants in the Iberian market.

KWM advising team was formed by the energy partner, **Gonzalo Olivera** (pictured), the senior associates, **Félix Hernández** and **Alberto Artés**, and the associate, **Jose Berjón**.
