Linklaters has advised F2i and Crédit Agricole Assurances on the acquisition from Villar Mir Energía of a wind farm portfolio in operation (53 MW) and under development (430 MW) together with the acquisition by F2i of a 40% stake in the Villar Mir Group electricity supply business.

The seller, Villar Mir, is a historic spanish conglomerate operating in 31 countries in the real estate, metalworking, power generation and construction sectors.

This deal represents the fourth investment of Fondo per le Infrastrutture Sostenibili (Fund V), which, since its launch a year ago, has already raised around EUR 1.3 billion, out of a target of EUR 1.5 billion. The other investments of Fund V include Ital Gas Storage (gas storage), Relife (circular economy and recycling) and Althea (social-healthcare infrastructure).
