MAIO Legal has advised Babylon Park on the opening of its first store in Spain. The Westfield Parquesur shopping centre, located in Leganés (Madrid), will host the opening of the first Babylon Park in Spain and the third in Europe. It will be the first flagship store of the Babylon Park network and will have 1,500 square metres and an initial investment of 5 million euros for the first phase.

The space will include attractions such as a roller coaster, a free fall tower, bumper cars or merry-go-rounds, as well as video games, simulators and arcade, which will make it an ideal meeting place to celebrate special occasions, from children's birthdays to corporate events.

The team from MAIO Legal advising Babylon Park was formed by **César Álvarez** (pictured left) and **Marta Molina** (pictured right), from the real estate area.
