CMS Portugal has reinforced its real estate team with the integration of **José Manuel Silva Nunes**. The new managing associate has over 10 years of experience in real estate, particularly in transactions of significant size and complexity.

For **João Pinheiro da Silva**, the partner who has been coordinating the Real Estate area of CMS since 2021, said, "it is a matter of reinforcing the team with a professional of excellence. With the increase in demand from clients, José's arrival in a team that already has lawyers of enormous quality today increases our response capacity."

As for José Manuel Silva Nunes, he states that: "it is with enormous expectations that I embrace this new project: the challenge of being able to work on major operations, in a team with a global perspective of the market. Being in a company with the international scope of CMS is a reason for enthusiasm in itself."
