During this period, the departments that have contributed the most to this result have been the tax and labour areas with a growth of 19% and 15% respectively. Another legal area that has seen a significant increase is the procedural law department, with an 18% growth.

Likewise, the strong growth experienced by the activity at the firm's Madrid office has had a special influence on achieving these results, with revenue growing by 15%, reaching €4.7 million in 2023. On the other hand, the Barcelona office grew by 6%, reaching a turnover of €7.9 million.

**Luis Marimón Prats** (pictured), CEO of Marimón Solicitors, stated regarding these results: "Our analysis of the firm's activity in 2023 is very positive. We have surpassed the income volume compared to the previous year in a complex economic context, both nationally and internationally, and we have continued to strengthen our structure with the appointment of new partners. We interpret these results as a demonstration of the trust our clients place in us and it represents a strong incentive to keep improving day by day."
