**Lawyer Cristina Cerván López has left Martínez-Echevarría & Rivera Abogados to launch her own law firm, Law&Bytes, a Marbella-based Legal boutique that offers Commercial, New Technologies and Real Estate services**

Cristina Cerván is a Law graduate from the Universidad de Málaga, holds a Master's degree in Digital Law and New Technologies from the Universidad Pontificia de Salamanca and is a member of the Malaga Bar Association (ICAMÁLAGA). Until March, she has been a lawyer at Martínez-Echevarría & Rivera Abogados, where she worked in the Real Estate area and White-Collar Crime. Previously, she worked in the Marbella area at several companies and law firms such as Prime Invest as a lawyer, at Samper Jiménez & Associates and as a lawyer at Cash Converter Spain.

Now she is launching her own law firm that offers legal services in Commercial Law and New Technologies Law (ICTs), focusing on helping both individuals and small and medium-sized companies to provide advice in accordance with their current and future needs.

"I would like to announce that I have begun the path of entrepreneurship by creating my own law firm. This decision has been well thought out and the COVID has helped me to take this decision. If this had not happened, it would have been difficult for me to embark on this adventure. Many people tell me that I am brave and even more so in these times, I do not know if I am brave but I am proud of the step I have taken as a lawyer. I would like to introduce you to Law&Bytes. It was very clear that I wanted a different, modern and at the same time classic office. The result has been incredible. We offer services in the following areas; Commercial, New Technologies (ICT) and Real Estate," announced Cristina.
