**Abreu Advogados advised Mercedes-Benz on the negotiation of a lease and construction contract for an “digital innovation centre” in Lisbon.**

The centre will be located at Factory Lisbon, which is located on the site of two former food factories.

The Mercedes-Benz innovation centre will occupy an area of 2,000 metres-squared at the site and will employ 125 people.

The Abreu Advogados team was led by partner Patrícia Viana and associates Madalena Caldeira and Renata Silva Alves.

Mercedez-Benz is also being advised by real estate company JLL on the project management of the new centre. Rita Pinto Ribeiro, manager of JLL Workplace Solutions, said: "This is a disruptive project where the new space will have to reflect a truly hispster environment, and that is very challenging in terms of team management and technical requirements."
