Category: [Archive](#)

The legal community is mourning the loss of Monereo Meyer Abogados law firm founding partner Andrés Monereo Velasco in the early hours of April 2

Born in 1961 in Madrid, he graduated in Law and Business Management from the Universidad Pontificia Comillas (ICADE), beginning his career as a lawyer in 1985. Specialising in Real Estate and Commercial Law, in 1989 he co-founded Monereo Meyer Abogados, giving life to a law firm that is today a benchmark in legal advice to international clients with interests in Spain. Andrés was also of counsel to our allied firm in the United States, co-leading our US Desk.

The law firm remembers him as "A person of enormous human quality and a great jurist. His love for the firm he founded, which he saw grow and consolidate, as well as his professional integrity, leave us with an indelible mark and a great emptiness that can never be filled."

Iberian Lawyer expresses its deepest condolences to his family and friends.
