Ontier has advised Atalaya Riotinto Minera, a fully-owned subsidiary of Atalaya Mining which operates the Riotinto mine in Huelva, on the construction of the largest self-consumption photovoltaic installation in Spain, with a capacity of ca. 50MW.

Endesa X Servicios will be in charge of the construction. The firm specialises in the energy sector and seeks to work with sustainability, innovation and technology criteria.

The Ontier team advising on this deal was formed by the partner, **Francisco Fenoy** (pictured) and the lawyer, **Teresa Baselga**.
