ONTIER's energy team has advised the canadian and chinese firm, Canadian Solar, on the acquisition of a 50 MWp photovoltaic project under development in Andalusia. The project includes its evacuation infrastructure and other integral elements of the installation.

Canadian Solar Inc, founded in 2001 by Dr. Shawn Qu, is a solar energy manufacturing company specialised in the production of solar modules and solar photovoltaic power systems. Today it has more than 14,000 employees and customers in more than 160 countries.

The team from ONTIER advising Canadian Solar was formed by the Energy Director, **Lucía González** (pictured) and **Teresa Baselga**.
