Pérez-Llorca has launched an app to share the latest legal news and all the content generated by the firm's professionals. The user will find legal notes, newsletters, yearbooks, Pérez-Llorca legal magazines, opinion articles, news and events, among others.

Users will also be able to manage this legal content according to their preferences and will be able to organise and personalise it by practice area, allowing them to receive alerts with the latest legal news according to their interests.

This tool is part of Pérez-Llorca's innovation and digital transformation, which seeks to develop technological solutions to improve the experience of the firm's clients through efficiency and competitiveness.

The app is now available in both Spanish and English and can be downloaded from the App Store and Google Play for Android.
