Category: [Archive](#)

RLD has incorporated Manuel Sánchez Costilla, who joins from Deloitte Legal, to create and lead

the new department specialized in Tax Law

Manuel Sánchez Costilla (pictured) joins RLD after 14 years at Deloitte Legal where he was director of the Corporate & International Tax Services area. Throughout his professional career, he has advised on national and international Tax matters to large Spanish and foreign multinational groups belonging to a wide variety of business sectors, being especially linked to the consumer goods and distribution industry during the last years.

In the current environment, the firm considers the Tax area a strategic one in the development of its business, being complementary to the different practices of the firm and, at the same time, promoting its expansion to Middle East markets. "Many of our clients were asking us for continuous advice on Tax matters, so we were only waiting for the right person to lead this new legal branch within RLD", said Rafael López-Diéguez Gamoneda, firm's founding partner.
