RocaJunyent has advised Vottun on its recognition by the Bank of Spain as the first multi-blockchain platform in the world that can offer services as a provider of virtual currency exchange for fiat currency and custody of electronic wallets.

Vottun is a Spanish firm specialised in the development of blockchain solutions for companies. It is a platform capable of connecting with all types of applications and infrastructures.

The recognition and registration by the Bank of Spain recognises Vottun's commitment to offer regulated solutions for the blockchain technology on which cryptocurrencies are sustained.

The team from RocaJunyent advising Vottun was formed by the partner, **Xavier Foz** (pictured) and the associate, **Joaquim Matinero**.
