Rocajunyent has advised **Global Social Impact Investments**, the impact investment fund manager of the Santa Comba family holding company, on its €3 million investment in the urban outlets chain **Sqrups**, through its private equity fund GSIF Spain.

Global Social Impact Investments will increase Sqrups' capital by up to three million euros, with this first disbursement of 50% for a minority stake.

The transaction, led by the partner and the associate of Commercial Law, **Santi Pagès** and **Aina Teixidó**, will be used to finance the establishment of Sqrups shops during the following three years, which will allow the company to exceed 120 points of sale, between its own and franchises.

Sqrups already has around fifty shops in which it offers more than 1,000 items of food, stationery, drugstore, fashion and accessories, furniture and household goods.
