SBC Abogados and the Spanish Transport Association (AET in Spanish) have sealed a collaboration agreement

By this agreement, the firm, with offices in Madrid and Barcelona, will collaborate with the association and its associates, promoting the development of both organizations in an increasingly complex regulatory environment.

AET's president, José María Pérez Revenga (pictured right), highlighted: "This alliance allows us to offer specialized and quality advice to the association and to all our partners".

From her part, SBC Abogados partner Montse Balagué (pictured left) states that "the transport sector has its own specificities that make truly specialised advice particularly necessary". In addition, partner Edgar Salmerón emphasizes that "as a firm, we are convinced of the importance of specialization."
