Signaturit has signed an agreement with Salesforce through which the electronic signature is integrated into the Salesforce AppExchange. Signaturit clients will now be able to securely send contracts to be signed directly from Salesforce..

Woodson Martin, general manager of Salesforce AppExchange said: "We welcome Signaturit to the AppExchange, as it drives the digital transformation of clients by enabling electronic signatures integrated directly with Salesforce", and adds: "AppExchange is constantly evolving, to connect customers with the right applications and experts for their business needs."
