**María Jesús González-Espejo, managing partner of the Institute for Legal Innovation and Vice-President of the European Legal Technology Association (ELTA), has been named one of the 5**

## most influential women in LegalTech in 2020 by the International Legal Technology Association (ILTA)

María Jesús (pictured) is a lawyer, innovator, and innovation and Legal Tech evangelist. She works on the transformation of the legal sector in Spain. She introduced the Legal Design Thinking methodology in Spain. She has also received the recognition as Madrid City Council official ambassador for bringing the European LegalTech 2019 Congress to this city, and supports the internationalization of Spanish LegalTech through her role as Vice President of ELTA.

Other achievements include the development of ConflictMapp, a computer application that helps people to solve their conflicts and unblock the courts. She is also author of numerous publications on this subject.
