Gómez-Acebo & Pombo (GA_P) has advised Axens on the acquisition of HydroThane's spanish subsidiary.

Axens is a company that offers solutions for the conversion of oil and biomass into cleaner fuels, the production and purification of the main petrochemical intermediates, chemical recycling of plastics, all natural gas treatment and conversion options together with hydrogen purification and transport, water treatment and carbon capture.

The GA_P team advising Axens was formed by the partner **Fernando de las Cuevas** (pictured) and the associates **Clara Rivero Sans** and **Sergio Gómez López**.
