Madrid-headquartered law firm Vaciero and AEMAB (Association of Alternative Stock Market Companies) have signed a collaboration agreement to provide training for listed companies.

The two entities have established a calendar of activities in which experts will analyse legal and financial issues that affect businesses listed on the alternative stock market.

The firm's managing partner, **Francisco Vaciero** said: "Companies on the alternative stock market, like all other companies, are exposed to regulatory changes that affect them in their day to day".
