Watson Farley & Williams has advised Sonnedix Power Holdings on the acquisition of a 4.6 MW PV portfolio in Spain

Independent power producer (IPP) Sonnedix Power Holdings Ltd has acquired a 4.6 MW portfolio of fully operating solar photovoltaic (PV) parks in Spain.

The assets were purchased from Madrid-based investment manager Aurea Capital Partners and two Spanish family companies.

The portfolio consists of five ground-mounted plants operating since 2008-2011 under the Spanish regulatory regime. The PV parks are located in Zaragoza, Ciudad Real, Huesca provinces and the regions of Murcia and Andalusia.

WFW was Sonnedix's legal and Tax adviser, with a team led by Corporate and M&A Group partner and Head of WFW Madrid office María Pilar García Guijarro (pictured) together with Román Pazos (lead associate), Pilar Rozas, Daniel Schaub, Juan Area Díaz de Atauri and Martín Santos Villegas (associates).
